Meet the Wolves:

Yana, Tamaska and Matsi

The pups coped well with the move into the extended enclosure
and we are pleased to say that Yana is back to developing into a full Alpha wolf.

Matsi does a good job of keeping us up to date on anything different or worrying
and is very good at catching the odd rat or squirrel that enters the enclosure.

Tamaska hated the recent storms and had to have loads of reassurance or he
would revert back to being a tiny pup and suck on the end of Shaun's nose.

Not quite so good now he is the size and weight of an adult wolf!!
